Masking at Club dances is now optional but strongly encouraged. This policy may be revisited in the future as COVID-19 statistics change. (*Approved by the Board on 9/27/22*).

---

When dancers attend a Club dance for the first time, they must present documentary proof (cell phone photo is OK) that they completed the full first course of COVID vaccination plus at least one booster shot. A full course is one shot of J&J or AstraZeneca, or two shots of Moderna or Pfizer. (*Approved by the Board at some time in the past, and renewed by the Board on 9/27/22*)

---

A person who has had COVID must meet both the current guidelines of the CDC (posted at <https://www.cdc.gov/media/releases/2022/p0811-covid-guidance.html>) and the Club-specific policy outlined below, before returning to dance at the Club. It will be enforced by the honor system. We will notify people of the requirement, and we will ask if they have met the requirement, but will not require documentary proof.

The Club-specific policy is that the person who has had COVID must wait for eight days

after the most recent of these three events: (1) they no longer have symptoms, (2) their most recent positive test, and (3) if they take an anti-viral drug like paxlovid, the last day of their treatment. Once they have waited 8 days after these events, then if they test negative, they can return to dancing with the Club. *(Approved by the Board on 9/27/22)*
